

Tula Curved Seat

PLAN - STRAPS REMOVED FOR CLARITY

TYPICAL ELEVATION

TECHNICAL DATA

The Tula Curved Seat is a high quality seating option for any environment or scheme. Engineered to combine comfort and functionality, the mild steel curved seat is suitable for rugged all-weather performance.

These seats are also available in various grades of satin polished stainless steel.

The Goose Foot Tula curved seat is not only aesthetically pleasing, but can also be produced in a number of different designs, including as inward and outward facing or as circular tree seat.

The modular design of the curved seat means the length can be modified to suit your needs, making them a perfect product for a bespoke project.
