

Round Telescopic Security Bollard

TECHNICAL DATA

This product is a large deterrent bollard which is fitted with a lift-assist mechanism as standard on the telescopic variant. This reduces the lifting weight of the product by up to 70%. Available in a variety of different operations and with a range of complimentary products to match. This product is perfect for all commercial security needs.

With an increased diameter, this bollard offers an aesthetically pleasing, more imposing deterrent to unauthorised vehicle attack and offers heavy duty ram-raid protection for multiple applications.

Size Options

114mm diameter

Available in 900mm or 670mm heights (above ground level)
