

Case Studies

Goose Green, Altrincham

Project: Goose Green Development Scheme
Client: Planit-IE
Location: Altrincham Town Centre

Details:

A £6m public realm project led by Altrincham Forward to transform the appearance of Altrincham town centre has converted its vehicle-dominated streets into a pedestrian-friendly environment.

We worked with Planit-IE to manufacture twenty five bespoke tree grilles and eight bespoke 2.6m seats for the town centre. In addition, we supplied twelve bespoke mild steel cycle stands, all with intricate laser cut designs, and a wall mounted corner bench with 60mm thick Iroko slats which fits around the Goose Green plinth.

All the steelwork was powder coated at our in-house facility.

Roe Lee Park Regeneration

Project: Roe Lee Park Regeneration
Client: Blackburn With Darwen Council
Location: Blackburn, Lancashire

Details:

Goose Foot Street Furniture is continuing its close working relationship with Blackburn With Darwen Council after being approached to supply new picnic sets for Roe Lee Park.

The Tula picnic set blends seamlessly into the parks' environment and allows for increased usage of the open space.

Graham Wood, General Manager of Goose Foot Street Furniture said: "We were delighted when Blackburn With Darwen Council selected Goose Foot to supply the new picnic sets to Roe Lee Park.

At a national and local level, we are being encouraged to spend more time outdoors and the provision of a picnic area certainly aids this."

Kingsmill Road Development, Wrexham

Project: Kingsmill Road Regeneration
Client: Anwyl Homes
Location: Kingsmill Road

Details:

Goose Foot was selected by Anwyl Homes to work together on the Kingsmill Road development in Wrexham. Anwyl chose the Tula range, which includes curved and straight modular seats together with two Goose Foot signature litter bins.

Located in the central courtyard at Kingsmill Road, these seats take pride of place and allow for a stronger network of open space. The local residents are delighted with their new facilities and opportunity to mingle in comfort with their neighbours.

The seating was designed to mirror the surroundings of the open space and act as a catalyst for local regeneration.

Sainsbury's, Oldham

Project: Sainsbury's, Oldham
Client: Sainsbury's
Location: Oldham

Details:

We were selected to supply seating for the public realm area at Sainsbury's, Oldham as part of an ongoing town centre regeneration project.

The Tula seat in 304 grade stainless steel, with its stylish and contemporary design, matches the modern town centre scheme. Additional seats were also ordered as the council looks to integrate the different levels throughout the town centre.

This new outdoor seating area allows for a stronger network of open space at the superstore and offers shoppers the chance to relax. This is the fourth mainstream supermarket chain to select Goose Foot as the supplier of seats and benches in the last 12 months.

Colwyn Bay, Waterfront Regeneration

- Project:** Waterfront Regeneration
Client: Conwy County Borough Council
Location: Colwyn Bay, Wales
Collaboration: Freshwest Design

Details:

Goose Foot was chosen by Freshwest Design to work together in producing ten eye catching seats and benches for the promenade, as part of the Colwyn Bay Waterfront Regeneration Project.

The seat frames were laser cut and fabricated at our state-of-the-art factory in Darwen, UK, using 316 marine grade stainless steel and kebony syp timbers. The final fabrication, assembly and installation was undertaken by Freshwest Design. These bespoke seats were specifically designed to stop people in their tracks and provoke discussion from the general public.

The Colwyn Bay Waterfront Project combines the renewal of coastal defences with regeneration improvements to the promenade, creating a modern, sustainable and attractive waterfront. A key element of the project is the idea of circular movement – encouraging people to use the prominent road and pedestrian signs to travel along the promenade, up to the town centre and up to Old Colwyn near Parc Eirias.

WW1 War Memorial Bespoke Seating - Folkestone, Kent

- Project:** Memorial and Bespoke Seating
Client: Step Short Educational Charity
Location: Folkestone, Kent
Collaboration: m-tec

STEP SHORT

Details:
Goose Foot Street Furniture and sister company m-tec were commissioned by the educational charity Step Short to manufacture the completely bespoke seating and iconic stainless steel arch. Unveiled by Prince Harry in August 2014, this project marks the centenary of the outbreak of World War 1.

To accompany the iconic arch, Goose Foot designed and manufactured the bespoke wall mounted benches using marine grade 316 stainless steel and Iroko slats to fit seamlessly into the recesses. The benches create a timeless feature within the town centre and blend into the surroundings perfectly.

The project marks the route taken by many of the men, a large number of whom would not return, marching down the Road of Remembrance to board the ships.

Graham Wood, Divisional Manager of Goose Foot Street Furniture Ltd, said: "We are honoured to be a part of the project, as it's such a special way to remember those who sacrificed so much for the country during the War."

ITV HQ Bespoke Seating - Media City, Salford

Project: Interactive Seating Installation
Client: ITV Headquarters
Location: Media City, Salford, Manchester
Collaboration: Kin Design

Details:
We worked closely with our parent group WEC and Kin Design to produce this eye catching stainless steel outdoor seating installation for ITV HQ at Media City, Salford. The seating is completely bespoke and designed to create a social seating area for the public and staff to use.

The 16m long stainless steel 'ribbon' was formed and fabricated over a period of 8 weeks to match Kin Designs' CAD model. The sections were individually polished to a uniform super satin finish including the blending and dressing of all welded joints.

For the installation, the piece was delivered in three sections and lifted into place using a 100t Hi-ab crane, positioned, fixed to the ground, welded, re-polished and painted on site.

Goose Foot works closely with the public and private sector across the UK to design and manufacture street furniture, whether in batch orders or one-off bespoke products.

Fishergate Central Gateway - Preston

Project: Fishergate Central Gateway Project

Client: Lancashire County Council

Location: Fishergate, Preston

Collaboration: Planit-IE

Details:

Goose Foot Street Furniture was selected by Lancashire County Council and the urban architects Planit-IE to design and manufacture 9 bespoke 4 metre long seats. These iconic seats are located in the Fishergate Central Gateway Project and also outside the railway station.

The project focuses on the delivery of a high quality public realm with re-configuration of key gateways. Designed to enhance the overall attractiveness of the City Centre as a viable business location and act as a catalyst for private sector inward investment.

One of the main themes of the project is to create a sense of place by enhancing the architectural heritage with a new shared space scheme to bring Fishergate into the 21st century.

The design of the bespoke seating is stylish yet engineered to be durable and practical.

Goose Foot is proud to have been chosen as a key partner in the city's ongoing regeneration.

Preston City Centre has seen many benefits as a result of the Fishergate Central Gateway Project, which has significantly improved the main approaches into the City Centre.
